# Community Health Needs Assessment (CHNA)

- Requirement of the ACA
- Public document
- Look upstream
- Focus on disparities

# Process

- Key informants
- Quantitative data
- Community Meetings

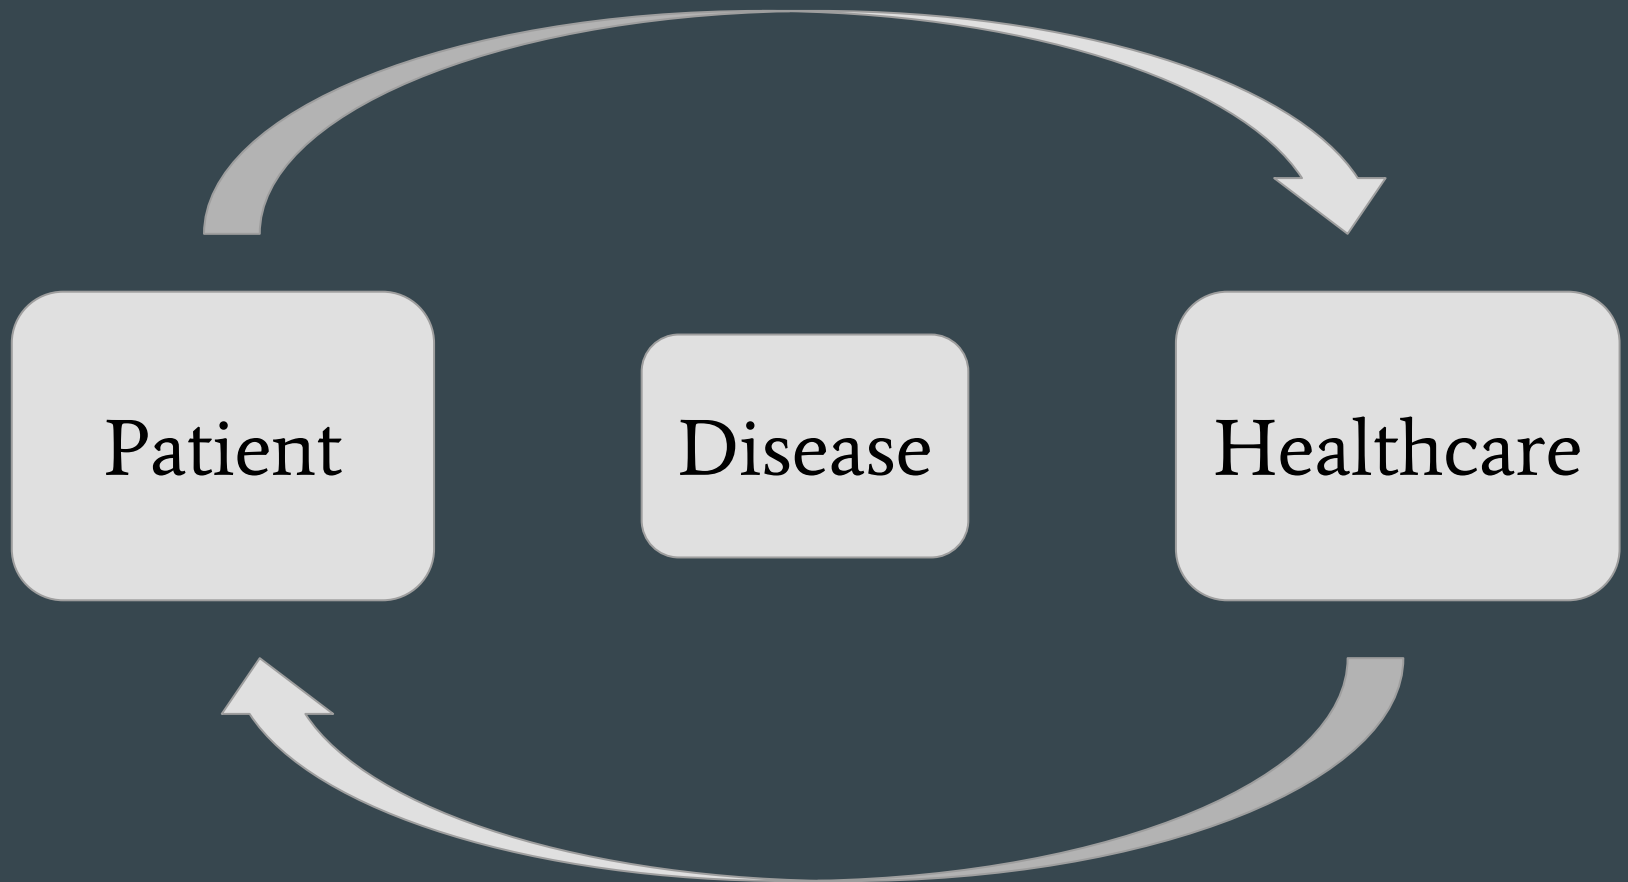

**If I had my back teeth, I'd eat carrots**

People talk to me like I'm stupid because I can't speak English good. If they spoke Chinese, they would know how smart I am

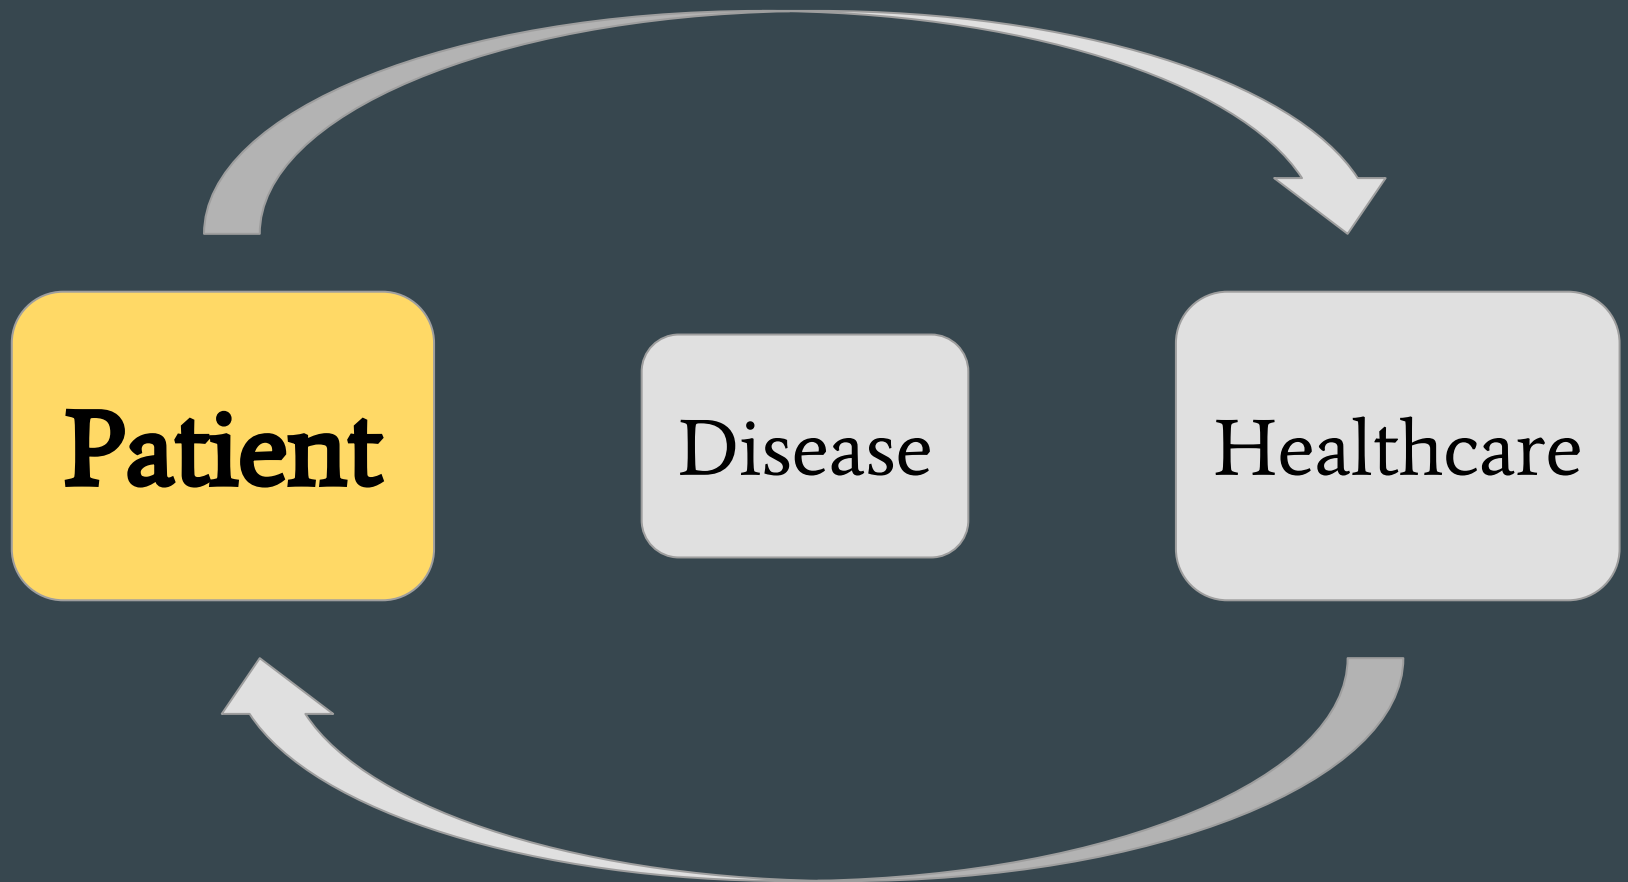

**(I'm) seeing peers having to get jobs at 14  
or 15 to support their families**

# 3-Part Health Paradigm

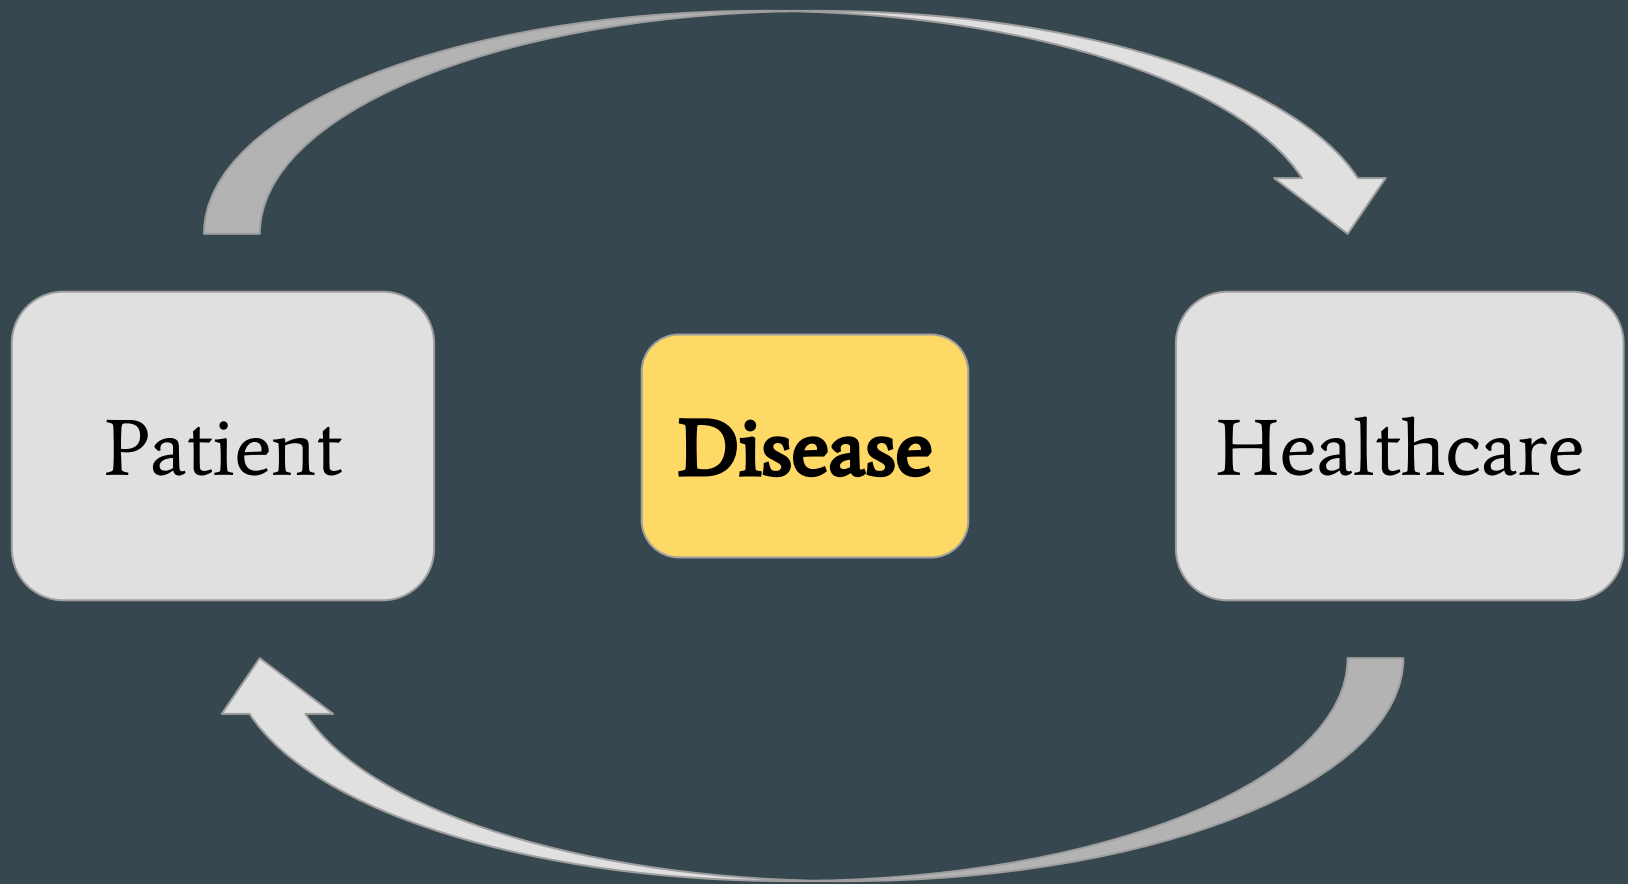

# The problem with patient compliance

Health is more than not being sick

Healthcare can't deliver health alone
