Hawaii Leads U.S. States in Well-Being for Record Sixth Time

BY DAN WITTERS

STATES WITH LOWEST AND HIGHEST
WELL-BEING INDEX SCORES, 2016

WEST VIRGINIA

58.9

HAWAII

65.2

GALLUP-HEALTHWAYS WELL-BEING INDEX

STORY HIGHLIGHTS

- Hawaii has highest well-being scores in three of five well-being elements
- Alaska among top two well-being states for third straight year
- West Virginia is lowest well-being state for eighth straight year

THE CHALLENGE

Change leaders in Hawai'i lack access to a broader range of quality community well being data to facilitate decision making and evaluation of impact.

OUR APPROACH

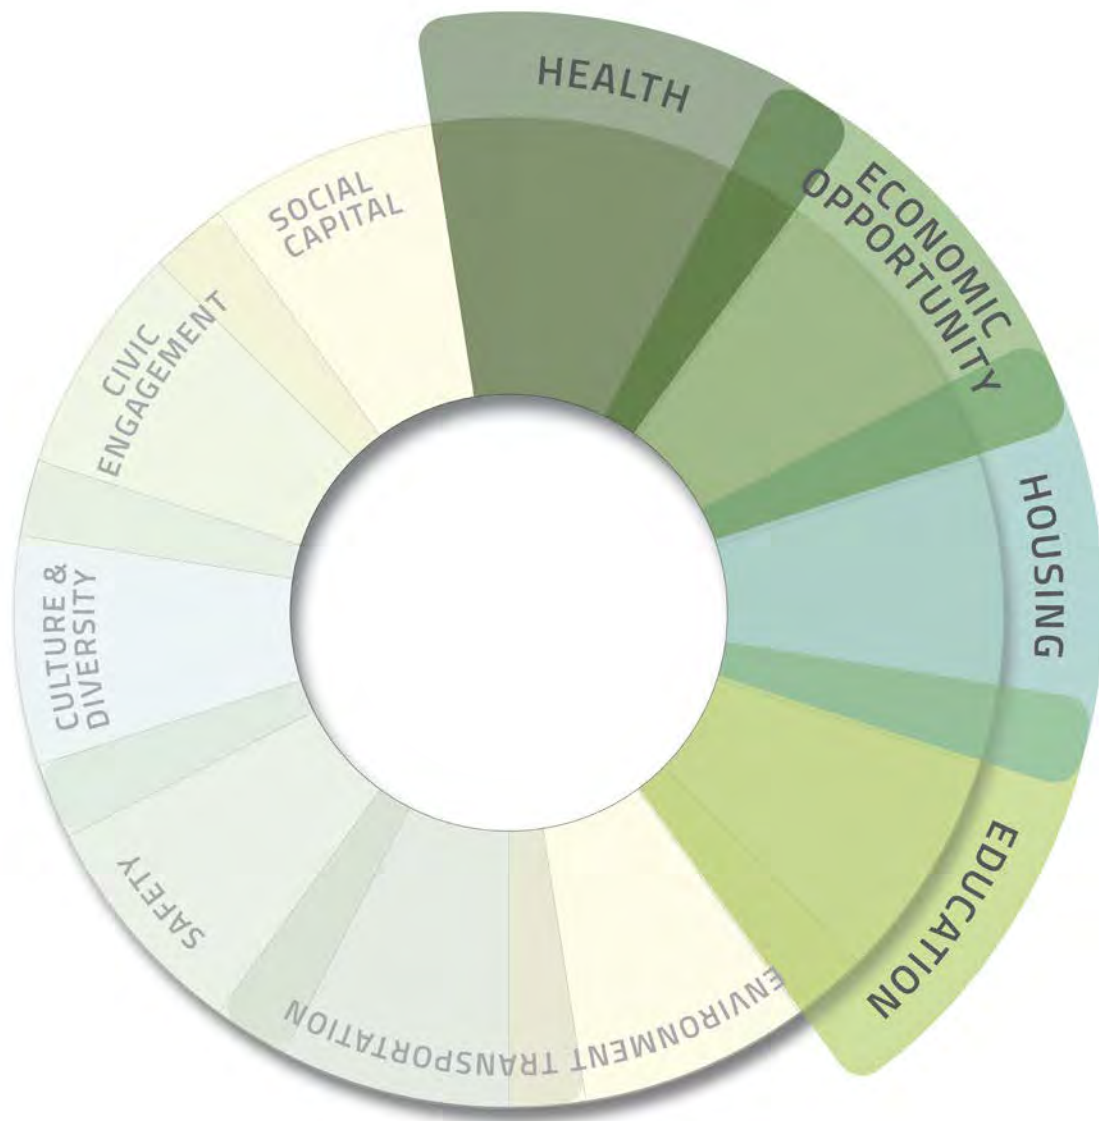

-
1. “Well being”
 2. Accessibility
 3. Data > Evidence > Action

A WEB-BASED PLATFORM

[BETA] Welcome to the Hawaii Well Being Data Project Data Visualizer tool! This tool allows you to compare the relationship between two indicators of well being across communities in Hawaii. The results are displayed as a [scatterplot](#). Each point on the plot represents the position of a single community -- relative to other communities across the state -- on the two indicators that you selected.

Hawai'i Value: 56.1 (%)

Rank: 49

Description: Percent of renters spending 30% or more of household income on rent

Notes: A family spending more than 30 percent of their income on housing is considered cost-burdened. A family spending more than 50 percent of their income on rent is considered extremely cost-burdened.
