

**Housing + Health:**  
Building Blocks of Equity and Opportunity

## Raquel's Story

**Raquel's story explores the housing options available to Raquel and her family, who have a moderate income for Austin. The story map format enables users to interact with maps and explore how different choices could impact the family's health and financial well-being.**

Raquel, Tom, and their two kids are looking for an affordable place for their family to live in Austin. Raquel is a part-time LVN nurse and Tom is a teacher. The family has a moderate income and have limited housing options to choose from. The map depicts the relationship between available affordable housing, financial and economic opportunities, and health outcomes. To experience Raquel's story, please use the link below.
